

# Distinctive.

- ✓ Durable
- ✓ Ergonomic
- ✓ High-Speed
- ✓ User-Friendly
- ✓ Multi-Functional

AirPower Series pneudraulic blind riveting tools from Applifast are distinguished from other riveters by a streamlined, ergonomic design allowing easy set up and are constructed for continuous reliable use in demanding production conditions.

The multi-functional trigger can be actioned with one or two fingers, ensuring hours of comfortable use. In addition to maintaining a tidy workspace, the integral mandrel collection system holds the rivet in the nose piece even when working 'face-down'. A revolving air inlet accommodates right or left handed users and can be rotated to access tight fastening locations in any position. A composite body keeps the operator's hands warm and also prevents scratching to assembly materials.

Three available models of AirPower Series riveters from Applifast are capable of any blind rivet application in any alloy from 3/32" to 1/4" diameter, including structural blind fasteners. Every operator's working preference is satisfied while maintaining a clean and safe workplace environment.

THE UNIQUE RATIO BETWEEN PERFORMANCE AND WEIGHT, MANDREL COLLECTION, AND REVOLVING AIR INLET ARE STANDARD FEATURES BUILT INTO THE AIR POWER SERIES RIVETERS FROM APPLIFAST TO OPTIMIZE OPERATOR COMFORT AND MAXIMIZE PRODUCTION EFFICIENCIES.

Multi-functional trigger controls the suction. When the trigger is pushed and shifted up, the suction is deactivated, when pushed and shifted down the suction is activated.

Designed with ergonomics in mind to increase endurance and personal comfort on the production line.

Tool suction holds a rivet in the tool while positioning even in face-down applications.

Tool hanger allows the riveter to be suspended from a tool balancer.

360° Rotating air inlet enables a right handed or left handed operator to rivet in any position.

Articulating swivel air hose saves air consumption with inline shut-off slide valve.

Multi-functional mandrel collector is a simple and effective system contributing to a tidy production area.

Model	Capacity	Weight	Dimensions	Stroke	Pressure Required	Traction power (6 bar)	Nose Pieces Included	
<b>AirPower 1</b> Z-1100001	2.4 – 4.8 mm 3/32" – 3/16"	Al, St, Rv Al, St, Rv	1.25 Kg 2.76 Lbs.	272 mm x 264 mm x 99 mm 10.71" x 10.39" x 3.90"	17 mm 0.67"	5-7 Bar 80-100 PSI	7.3 kN	3.0 mm, 4.0 mm, 5.0 mm
<b>AirPower 2</b> Z-1200001	4.0 - 6.4 mm 5/32" – 1/4"	Al, St, Rv Al, St, Rv	1.65 Kg 3.64 Lbs.	272 mm x 275 mm x 120 mm 10.71" x 10.83" x 4.72"	21 mm 0.83"	5-7 Bar 80-100 PSI	12.5 kN	4.0 mm, 4.8/5.0 mm, 6.0 mm, 6.4 mm
<b>AirPower 3</b> Z-13026001	4.8 - 6.4 mm 3/16" – 1/4"	Al, St, Rv Al, St, Rv	1.80 Kg 3.97 Lbs.	292 mm x 290 mm x 125 mm 11.50" x 11.42" x 4.92"	25 mm 0.98"	5-7 Bar 80-100 PSI	16 kN	5.0 mm, 5.0 mm Monobolt, 6.4 mm, 6.4 mm Monobolt
